The Leader in Ultraviolet Sterilization

The Aqua Ultraviolet System sterilizers are designed for maximum performance, power and reliability. Ultraviolet is proven to be safe, dependable and effective in killing bacteria and viruses without leaving any residuals in the water.

We Offer the Best in Design and Quality

Aqua Ultraviolet utilizes the highest quality components designed to work perfectly together. Our design maximizes kill rates and ensures ease of installation and maintenance.

Another Aqua Ultraviolet Innovation.... Optional Wipers Keeps Your Quartz Sleeve Clean And Efficient

Optional Wiper Maintenance Made Simple

The optional wiper allows the Ultraviolet Sterilizer to work at its optimum. With just a pull of the handle the wiper cleans the quartz sleeve.

A clean quartz sleeve allows the Ultraviolet rays to penetrate the water more effectively maximizing your UV transmission and kill rates.
